

# Undergraduate Mathematics Seminar

Department of Mathematics, Fall 2020

## The mindset I wish I had during my undergrad

### Howie Hua

Math Instructor, Fresno State

**Date:** Tuesday, September 8

**Time:** 12:00 - 12:50 pm EDT

**Location:** Zoom, ID: 935 1032 7072

Howie Hua is a math instructor at Fresno State where he teaches math to future elementary school teachers. Howie received his Bachelor's and Master's in Mathematics from Fresno State and was awarded Outstanding Lecturer for the College of Science and Math after his third year of teaching. In his spare time, Howie likes to make math memes.

I distinctly remember how guilty I felt on graduation day because I saw all of my math classes as just hoops to jump through. It felt like all I had done was memorize formulas, theorems, and definitions in each class for 4 years, and on graduation day, nothing really stuck. In this talk, I will share what I wish I could've told my undergrad self while we play with elementary math puzzles as inspiration.

### SPEAKER(S) FOR NEXT WEEK:

Emily Bennett

Organized by: Derek Orr, Tom Everest, Jeremiah Morgan, and Jeff Wheeler
